- Hyarchis.Net Webservice
- Hyarchis.Net Cross Site Connector
- Hyarchis.Net E-mail Management
- Hyarchis.Net Web Content Management

The training course consists of both theoretical and practical components. The latter allows you as a system administrator to get acquainted with and make use of the various modules and building blocks of Hyarchis.Net.

For whom is this training course intended?

This course is designed for system administrators or application administrators who are responsible for the implementation and configuration of Hyarchis.Net, and who wish to ensure that it is fully adapted to the requirements and wishes of their organizations.

When will the next training courses be held?

Tuesday 25 and Wednesday 26 March 2008

Tuesday 23 and Wednesday 24 September 2008

Where will the training course take place?

The training course takes place at VDD IQware in Waalre (Netherlands)

What is the objective of this training course?

The objective of this course is for you to learn all the ins and outs about the administration of Hyarchis.Net. The core focus of the course is on the configuration of Hyarchis.Net. This covers the following topics:

- archive definition
- establishing and defining security
- user administration (making use of Active Directory)
- import streams – making use of the various plug-ins
- export streams – making use of DTS and CSC
- configuration of the extra modules

Having completed this course you will be able to install, configure and manage Hyarchis.Net in a way that fully meets the requirements and wishes of your organization.

The training course is concluded with an exam.

What does this training course cost?

This two-day training course costs € 995,- (excl. BTW).
